A CHNT COMPANY

About CHINT Global

CHINT A leading global provider of smart energy solutions

CHINT was established in 1984. Over the years, thanks to our rapid development, CHINT has become the world's leading provider of intelligent energy solution for the entire industrial chain, offering the most comprehensive range of products, from Plant to Plug. In 2023, our annual sales revenue exceeded 22.1 billion dollars, with total assets surpassing 25 billion dollars.

Over three decades of global expansion, our business network has grown to cover more than 140 countries and regions worldwide. We operate in various areas including low-voltage, power transmission and distribution, water, gas and electricity metering, and green energy sectors such as solar. CHINT employs more than 50,000 people worldwide, creating over 500,000 jobs in the supply chains. Through the integration of businesses and continuous upgrading, CHINT Global has further established its supply

chain. This market localization has also enabled us to adopt flexible business models such as smart operation and maintenance, financing, and other integrated technical services for the global market.

Global Certification

The products have passed the standards and specifications in various regions around the world and obtained numerous international certifications

Business Scope

CHINT Global Lighting Up Your Life to Boundless Electric Possibilities

Power Generation • Energy Storage • Transmission • Transformation • Distribution • Sales • Consumption

Green Development

Takes action in the "Energy Revolution"
Helps to achieve the "Carbon Neutrality" goals

Annual average green power generation
53+ Billion kWh

Annual average coal savings
16+ Million Tons

Annual average carbon emission reduction
42+ Million Tons

The First in the Industry

Obtained **3** certifications from the MIIT of China

ESG

Ecovadis Silver

Joining the UNGC

Two honors in UNGC 2021 Best Practices

Carbon Neutrality

CHINT is taking action

Obtained the First Carbon Footprint Certification

Carbon Footprint Certification in China's low-voltage electrical appliance industry

Carbon Footprint Certification for 110kV and 220kV transformers

1

Residential

Customer Needs

Safety, energy saving, environmentally friendly, high intelligence

Solution Features

Automatic control, smart and convenient, realize various application scenarios

2

Public Building

Customer Needs

Energy saving and emission reduction, safety and reliability, management efficiency

Solution Features

One-stop system solution, safe and stable, improve management efficiency

3

Commercial Complex

Customer Needs

Low energy consumption, high intelligence, visualization, safety and reliability

Solution Features

Through the data analysis and management on CHINT Cloud, it helps to realize the intelligent control and adjustment to air conditioning and lighting, resulting in energy consumption reduction

4

Future Community

Customer Needs

Low carbon and high energy efficiency

Solution Features

Continuously providing energy sources, unified the integration through IoT platform, to realize high efficient and clean energy application

FIBA World Cup Stadium Power Distribution Project

“

Integrated Power Distribution Solution to Ensure Equipment Safety and Stable Operation

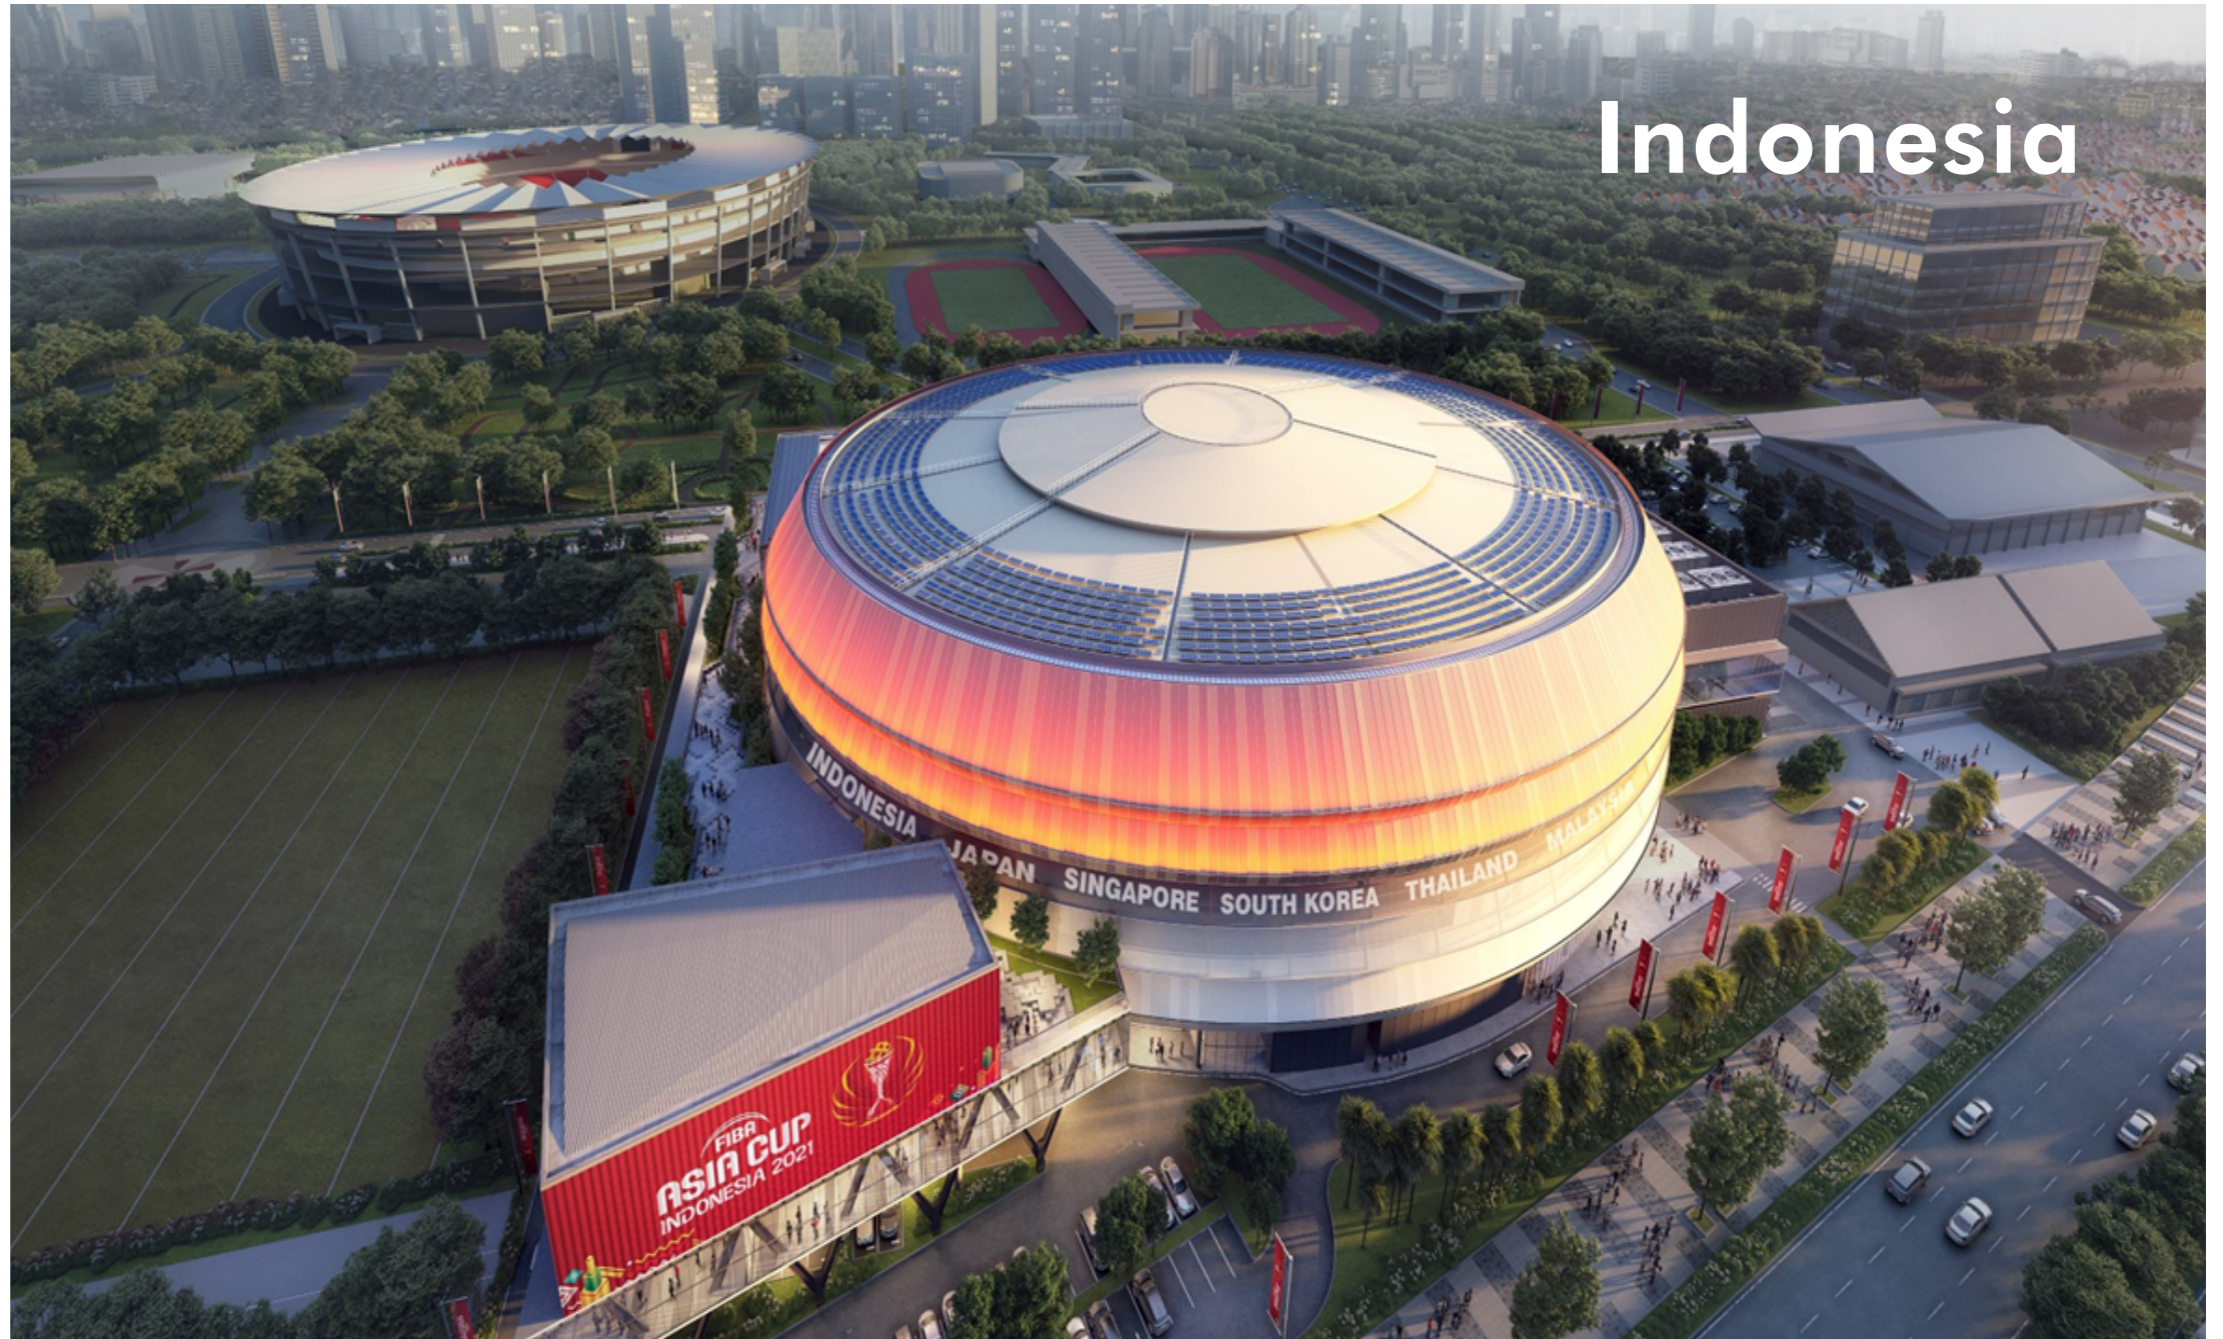

Date
2022

Location
Jakarta

Scope of Supply
ACB, MCCB, MCB, Contactor, TOR, VFD

Indonesia

SOLUTIONS

Located in Gelora Bung Karno (GBK) sports complex in Jakarta, this latest indoor stadium with 16,000 seats began its operation in June 2023, and was well prepared to host the 2023 FIBA Basketball World Cup. CHINT's solutions ensure the seamless operation and safe distribution of electricity within the stadium, providing a complete distribution solution for the venue's power system - including products such as ACB, MCCB, MCB, contactors, overload relays and inverters.

Haya Karima (Decent Life) Project

“

The initiative seeks to provide an integrated package of health, social and livelihood services to the community groups most in need. CHINT's safe, reliable and stable electrical products can ensure that these groups can use stable household electricity and live a better life they deserve.

Date
2021

Location
Around 624 Villages in 16 Provinces

Scope of Supply
Low-voltage Components for terminal distribution

Egypt

SOLUTIONS

Supplying all LV equipment for the sub-distribution (11kv or 22kv / 400 v) centres required to energize the urban remote villages with energy, including ACB, MCCB, MCB and all LV equipment.

Five-star Hotel Secrets Tides

“

Tailor-made solutions and fast delivery with high quality products

Date
2023/7

Location
PUNTA CANA

Scope of Supply
LV distribution switchgear, load center

Dominican Republic

SOLUTIONS

A new five-star resort hotel, Secrets Tides, is scheduled for completion in November 2023 at the Punta Cana Resort & Spa in the Dominican Republic, offering visitors from all over the world a unique beachfront holiday experience.

CHINT is providing 24/7 coverage for the hotel's electrical distribution system, which will provide electrical utility security for the hotel's nearly 700 rooms, restaurants, gym, swimming pool, and other amenities.
