About CHINT Global

CHINT A leading global provider of smart energy solutions

CHINT was established in 1984 and built from the capital of approximately 8,000 US dollars. With our rapid development these years, CHINT has become the world's leading intelligent energy solutions provider for the whole industrial chain with the most complete product ranges, from Plant to Plug. In 2022, our annual sales revenue exceeded 18.24 billion dollars and total assets of more than 206.84 billion dollars.

Over two decades of global expansion, our business network covers more than 140 countries and regions worldwide in areas of low-voltage, power transmission and distribution, water, gas and electricity metering, green energy like solar and more. CHINT has more than 40,000 employees worldwide, creating more than 200,000 jobs in the supply chains.

Through market localization by integrating businesses and continuous upgrading, CHINT Global further established its supply chain. This localization has also enabled flexible business models such as smart operating and maintenance, financing, and other integrated technical services for the global market.

Global Certification

The products have passed the standards and specifications in various regions around the world and obtained numerous international certifications

Business Scope

CHINT Global Lighting Up Your Life to Boundless Electric Possibilities

Power Generation • Energy Storage • Transmission • Transformation • Distribution • Sales • Consumption
A comprehensive industry chain established to foster the growth of a new integrated ecosystem

Green Development

Takes action in the "Energy Revolution"
Helps to achieve the "Carbon Neutrality" goals

Annual average green power generation
53+ Billion kWh

Annual average coal savings
16+ Million Tons

Annual average carbon emission reduction
42+ Million Tons

The First in the Industry

Obtained **3** certifications from the MIIT of China

ESG

Ecovadis Silver

Joining the UNGC

Two honors in UNGC 2021 Best Practices

Carbon Neutrality

CHINT is taking action

Obtained the First Carbon Footprint Certification

Carbon Footprint Certification in China's low-voltage electrical appliance industry

Carbon Footprint Certification for 110kV and 220kV transformers

—
CHINT Global Project Reference for
Industrial OEM

Industrial OEM

1 HVAC

Customer Needs

Safe and stable power supply, reliable power quality

Solution Features

Provide a highly intelligent and comprehensive HVAC, ensuring the equipment's optimum operation

2 Elevator

Customer Needs

Energy efficiency; safety and reliability; sustainability

Solution Features

Provide safe, reliable products and solutions including the dual power conversion, transformers, micro-ends and more - to help maximize the continuous and stable operation of elevators, assuring the safety of individuals and properties

3 Hoisting

Customer Needs

Energy efficiency; stability and reliability; operate remotely; sustainable and environmentally friendly

Solution Features

A full product range designed for extensive temperature range, voltage options, dust and corrosive gases resistant, ensures the operation stability of engineering machinery in harsh environments

4 Electronics

Customer Needs

Efficient and stable power supply, energy management and control, power quality assurance

Solution Features

Management efficiency, ensures optimum power supply and equipment are safe to operate, advancement for factory's local power distribution system to enhance the resistance of power grid fluctuations

Panel Power Distribution Project for an Elevator Manufacturer

“

Founded in Switzerland in 1874, the elevator manufacturer is the world's leading provider of elevators, escalators and other relevant services. Its innovative and environmentally friendly access and traffic management systems make an important contribution to the urban society's mobility. The company operates in more than 100 countries worldwide.

Date

2021

Location

India

Scope of Supply

Contactor, MCB

Customer Values

- Cost savings on procurement
- Shorten installation and delivery time
- Complete product certifications, Meeting the international exportation requirements

Panel Power Distribution Project for an Elevator Manufacturer
